Bollard Cover, International Airport

Stromberg decorative bollards enhance structure and landscape design while defining perimeters, directing pedestrian and vehicle traffic and transforming plain security bollards into architectural assets that compliment their surroundings.

We offer classically styled designs with gentle curves, decorative finials and fluted details or contemporary styling. Stromberg bollards are more than just functional barriers; when creatively used they transform the landscape in a complimentary and pleasing way. Add accents of greenery with planter bollards.

protection of a safety barrier. Moveable bollards allow versatility of path changes, while permanent bollards may be built into the ground. Security bollards are very strong and are built to withstand heavy impacts. Choose the bollard type that is right for you.

We offer full customization. Whatever the challenge, our design team will work with you to create the solution that best fits your company's needs. Stromberg ornamental bollards are available in quality materials that include Architectural Precast, GFRC, Cast Stone, Granite, and Architectural Fiberglass.

Manage vehicular, pedestrian, and bicycle traffic flow with Stromberg bollards.

Bollards separate motor vehicles from foot travellers, and cyclists. Bollards may be placed in any area where vehicles are restricted or prohibited due to issues of public safety.

Other uses for bollards include parking prevention, traffic diversion, and to close off areas for public use.

Icon Bollards by Stromberg

Icon bollards are fun yet functional security barriers that create safe areas free of vehicle traffic. Stromberg Icon bollards are available in popular sports shapes, and are perfect for parks, recreational complexes, and stadiums.

Fruit icons are fun additions to grocery stores, shopping malls, and restaurants; colorfully carrying your theme throughout the landscape.
